*Low cost • Fits several cable sizes • Dry locations only*

8415 fitting w/o bushing installed

8415 w/ built-in endstop

Patent pending

**NEW!**  
FREE template for selecting bushing size

Save time and money! Arlington's new, low cost MC cable fittings in a variety of sizes, are super-convenient and cost-effective. Each fitting has a built-in end stop, but also comes with additional end stop bushings that accommodate different size cable bundles. ONE trade size fits several cable sizes!

If required, using an end stop bushing is fast and easy. There's no need to remove the strap. Just loosen the screws and insert the bushing that works the best with the cables you're installing in dry locations.

Our zinc diecast MC cable fittings cost much less than steel or malleable iron fittings – and reduce inventory.

- Built-in end stop in fitting
- UL/CSA Listed

**Cable Bundle Diameter-2" Trade Size (8415)**

Outer Diameter:	MIN.	MAX.
of Cable	1.70	2.20
of Wire Bundle	1.55	2.05

**Examples of 3- and 4-conductor cables usable with 2" Trade Size (8415)**

Conductor size/ # of conductors (AWG/KCMIL)	300-4 500-3	350-3	250-4 350-4

Installation is quick and easy. There's no need to remove the strap.

1 Simply loosen the screws and insert end stop bushing if necessary. Slip connector onto MC cable. Retighten screws on strap.

2 If you are using an end stop bushing, determine which one to use by sizing it to the cable bundle (not the metal jacket). **Incorrect size shown above.** The metal jacket should never go through the end stop.

3 Insert the appropriate end stop bushing, making sure that the half-moon shape is positioned at the top of the connector.
