# SPECIFICATION SHEET

# **MODEL ZB110 VENTILATION FAN**

# **FEATURES**

### UltraGreen<sup>™</sup> Energy Saving DC Motor

- DC motor for efficiency well beyond ENERGY STAR<sup>®</sup> requirements.
- Multi-speed capability ideal for meeting ASHRAE 62.2, LEED and ENERGY STAR® for Homes requirements. Can be used to comply with CA Title 24, as well as local/spot ventilation needs.

#### UltraSilent<sup>™</sup> Sound Technology

- HVI certified, best-achievable <0.3 Sone level provides nearly silent operation for a relaxing environment.
- State-of-the-art blower and duct outlet design smooths airflow.
- High tech DC motor designed for nearly silent operation.

#### UltraSmart<sup>™</sup> Control Technology

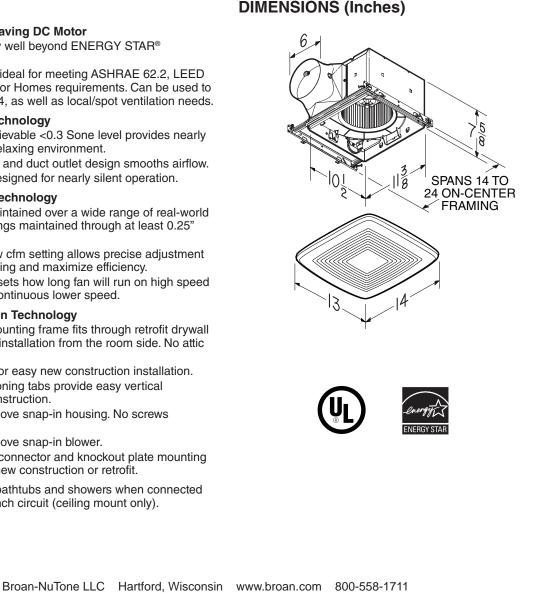

- · Powerful operation maintained over a wide range of real-world installations (CFM ratings maintained through at least 0.25" static pressure).
- Infinitely adjustable low cfm setting allows precise adjustment to prevent over-ventilating and maximize efficiency.
- · Adjustable time delay sets how long fan will run on high speed before returning to a continuous lower speed.

#### UltraQuick<sup>™</sup> Installation Technology

- Unique telescoping mounting frame fits through retrofit drywall opening to allow easy installation from the room side. No attic access needed!
- Captive screws allow for easy new construction installation.
- Mounting frame positioning tabs provide easy vertical positioning for new construction.
- · Easy to insert and remove snap-in housing. No screws required!
- · Easy to insert and remove snap-in blower.
- Inside or outside duct connector and knockout plate mounting provides flexibility for new construction or retrofit.

U.L. Listed for use over bathtubs and showers when connected to a GFCI protected branch circuit (ceiling mount only).

3-year warranty.

**CERTIFIED** with new testing

HVI-2100 2100 CERTIFIED **RATINGS** comply

technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 in. static pressure, based on tests conducted in a state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.
