MODEL NO. 1167-DAV
CENTERSET SELF-CLOSING
LAVATORY FAUCET

The self closing lavatory centerset is designed with a solid cast brass body with replaceable seats. The faucet shanks are located on 4-inch centers for supply connections and mounting. The lever handles are cast brass with a hot and cold index. The stem unit is spring loaded in the closed position and opens by rotary cam lift through ball bearings. The stem assembly is brass with a reinforced rubber packing and phosphor bronze spring. The faucet body and handles have a polished and copper, nickel and chrome plated finish. The faucet is equipped with a water saving aerator. The pop-up drain is brass with a chrome plated finish. The stopper and guide assembly can be easily removed for cleaning.

Flow Rate: 2.0 GPM @ 60 psi

ASME A112.18.1M

Certified by IAPMO R&T to NSF/ANSI 61
