## The Eaton difference

- Built-in patented wire stripper provides handy backup for misplaced tools
- Longer, wider strap provides $40 \%$ more contact area to wallboard, virtually eliminating floating installations
- Ultrasonic welded thermoplastic top and bottom housing eliminate call-backs due to job-site breakage
- Cam action mechanism inside for quiet switch action
- Built-in wire looper to speed termination of both \#14 and \#12 AWG wire
- Slotted, Phillips and Robertson Tri-combo screw heads offer greater installation flexibility

Specific switch solutions for today's needs

## Aesthetic upgrades

Complete the look of a beautiful redecoration, renovation or new home with decorator switches that provide contemporary styling to coordinate perfectly with today's décor.

See page B-4

## Device locator lighting

There are areas in every home where it is difficult to visually locate a switch in low-light or dark conditions. Lighted switches emit a soft glow that makes them easy to find without fumbling.

See page B-6

## Aluminum wiring

There are many homes that still contain aluminum wiring. Hybrid copper \& aluminum compatible (CO/ ALR) switches are required for aluminum wiring.

## Color ordering information:

For ordering devices, include Catalog no. followed by the Color suffix: A (Almond), B (Brown), LA (Light Almond), V (lvory), W (White).
