

SLP Series Fluorescent

SlimLyte Plus

The SlimLyte Plus with electronic ballast is the perfect solution for under-cabinet lighting in both home and office task lighting applications. Its energy efficient operation complies with both Title 24 and Energy Star requirements. The trim 1-1/8" height fits neatly out of view, and the high-efficiency T5 lamps produce brilliant lighting for optimum visibility.

Features

- 1-1/8" slim styling creates unobtrusive hidden light source
- Electronic ballast eliminates starter and provides instant light
- Post-painting after fabrication ensures high-quality finish
- Contractor-friendly SnapTyte assembly
- Damage-resistant white acrylic lens reduces glare factor
- Available in nominal 12", 21", 24", 33" and 42" sizes
- Electrical fitting included, accepting flexible conduit or romex

Fixture Ordering Logic Example: SLP116OL
