WHEN ENERGY EFFICIENT MATTERS...

CF995BS - page 4

Look for this logo for fans that carry Emerson's Most Energy Efficient Motor - The EcoMotor®

EcoMOTOR

HERE'S HOW...

EcoMotor Fans:

- Are up to 3 times more efficient than typical ceiling fan motors - cost less than 1¢ per hour to run.
- Use a maximum of 33 watts of energy.
- Drive a higher degree blade pitch more efficiently.
- Come with built-in electronics with 6-speed control.

- EcoMotor fans which are also part of our Blade Select Series are adaptable to 42/44", 52/54", 58/60" or 70/72" fan diameter without adding noise, allowing versatility & quiet operation

Emerson EcoMotor®

Carrera Grande & Carrera Grande Eco

CF787 & CF788

With 44", 54", 60" or 72" spans*, this architecturally-sculpted, ventless housing commands a dramatic presence. For energy savvy consumers, the Carrera Grande Eco generates great air movement using less than 30 watts of energy. As a part of the Blade Select Series, either the Carrera Grande (CF787) or Carrera Grande Eco (CF788) can be custom designed with blades and light fixtures to achieve a personalized look.

Features:

- 44", 54", 60" or 72" blade span*
- Light fixture adaptable (Sold Separately)
- 4.5" downrod included

Includes:

- Carrera Grande - 4-Speed Slide Wall Control
- Carrera Grande Eco - 6-Speed Wall Control with Receiver
- Damp Location rating in AW, GBZ, GES, ORB, VS, SW, VNB and WW finishes

See page 32 - 33 for the complete list of blade options for the Blade Select Series.
