

CADDY® PYRAMID ST Fixed Strut Supports

- Strut-based thermoplastic support designed specifically for rooftop applications
- Provides superior support for pipe, conduit, duct, cable tray and equipment
- Solid bottom surface protects the roof membrane from damage caused by concentrated pressure
- Offers excellent load distribution with high load ratings
- Base is manufactured from UV-stabilized thermoplastic material
- Engineered for long-lasting performance
- Supports green building requirements; thermoplastic bases are made from recycled material and can contribute to earning LEED credit

Material: Steel, Polypropylene
 Finish: Hot-dip galvanized
 Temperature: -30 – 130 °F
 Static Load Safety Factor: 3:1
