### Insertion Mounting

Cut a 4" slotted opening in one side of the duct and slide the damper in. Secure the damper to the duct with the supplied sheet metal screws. Larger sizes may require additional support by securing the back of the damper as well. If using duct board, additional support can be obtained by using Model DBA Duct Board Adaptors.

*\*If flush wall mounting is required, cut the flanges off of the front mounting plate.*

### WIRING SOLUTIONS

#### MOTOR Terminal Output

- M6 - Power to Close (PC)
- M4 - Power to Open (PO)
- M2 - Constant Power (HOT)
- M1 - Common (COM)

#### Wiring to a Control Panel

#### Wiring a Thermostat to Control a Single Damper

#### Wiring in Parallel
