

CONTRACTOR FOCUSED

Lytecaster "Ontract" Recessed Downlights

Products designed with the Contractor in mind...

Lytecaster understands the demanding environment lighting professionals face today. The concept of the saying "If you don't have time to do it right, when will you have time to do it over?" has never been more true. Today's lighting professional requires competitively priced, quality products on the shelf and ready to go.

Lytecaster puts you back "Ontract" with its series of Contractor focused products designed to meet the demands of today's high volume tract housing markets.

... Constantly Changing Business Climates

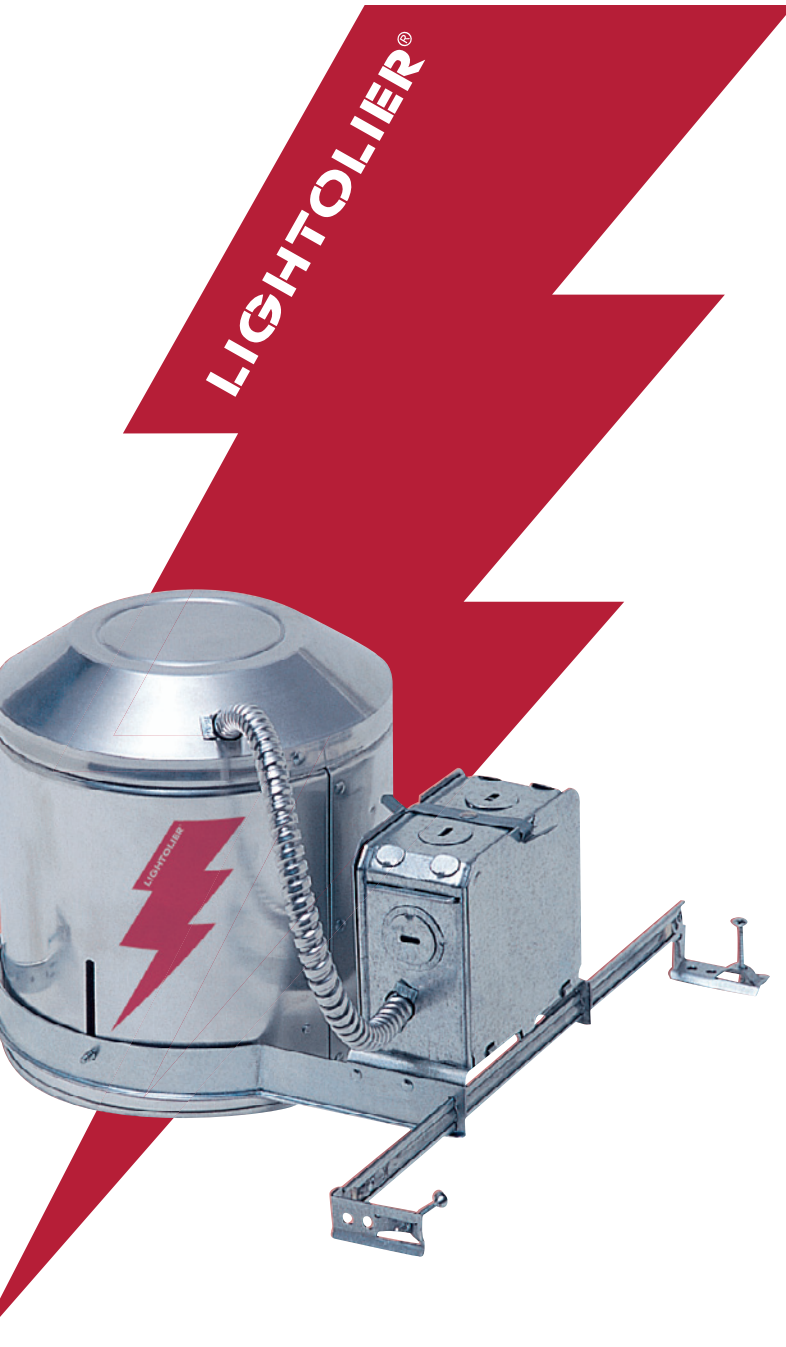

In today's global market there is no status quo... Changing markets, fluctuating economic indicators, limited resources and volatile pricing are some of the daily influences on todays business. With over 100 years of experience in lighting, Lightolier has the infrastructure and products necessary to support your daily needs. The Ontract series of products gives you more flexibility with attractive finishes and superior quality at competitive prices. You can sell with confidence knowing you are backed by a leader in the lighting industry.

... Increased Competition

Whether it's the contractor down the street, the "mega" store in the neighborhood or the increase in product choices domestically and overseas, increased competition requires smart buying decisions to stay competitive. Lytecaster has been the lighting product of choice and a leader in innovation for over 40 years. Our Ontract products allow you to be competitive without sacrificing quality. Excel against the competition by exceeding your customer's expectations with quality products that can meet any budget.

... Demanding Schedules

"Time is money!!" ... and your ability to meet and exceed your schedules can impact your bottom line. Lytecaster is committed to contractor-friendly products that save you time and money. Lytecaster's convertible IC/Non-IC rating, swivel mounting bars, and tool-free features can reduce installation time by 50%. Combine this with trims that install flush with a single push and unitized optics for consistent, optimal lamp position and you have a combination that cannot be beat.

... Changing Business Climates

... Increased Competition

... Demanding Schedules

Lytecaster puts you back "Ontract" with its series of Contractor focused products designed for today's high volume construction market. Products designed and developed with the contractor in mind with easy to install features and quality results for every application...

With over 40 years of experience, get "Ontract" with Lytecaster.

Additional Applications

In addition to the products outlined in this brochure, Lytecaster has a variety of products designed to meet the demanding needs of your customers. The following outlines some of the upgrades that are available to the Ontract products and the features they provide...

Ontract Recessed DOWNLIGHTS

Ontract Specular DOWNLIGHTS

Ontract Wet Location DOWNLIGHTS

Ontract Adjustable DOWNLIGHTS

Basic Reflector

1071 Hydroformed aluminum Low brightness splay design Gloss white finish resists scratches and corrosion

Aperture Cone

1013CD Anobrite upper reflector provide 25% greater output Spin, anodized aluminum cone for superior performance Architecturally focused slim flange

Lenslite

1128 Anobrite upper reflector provide 25% greater output White diffuser provides soft illumination with light beet to reduce brightness Architecturally focused slim flange

Step Baffle Eyeball

1122WH Die-cast aluminum baffle captures stray light 35° horizontal and 0° to 40° vertical rotation Architecturally focused slim flange

Basic Baffle

1076WH Molded high heat phenolic baffle captures stray light Architecturally focused slim flange Higher density aluminum

Specular Finish

1046 Specular reflector provide up to 40% greater output Excellent cut-off and optical performance Architecturally focused slim flange

Lens Free

1084WH Lens Free design allows for up to a 75W PAR Lamp Aesthetically pleasing design Available in 3 3/4", 5" and 6 3/4" apertures Gloss White and Clear Diffuse finishes

Power Eyeball

1123 Die-cast aluminum baffle captures stray light 35° horizontal and 0° to 40° vertical rotation Low impact design and increased wattages Architecturally focused slim flange

Step Baffle

1005WH Anobrite upper reflector provide 25% greater output Die-cast aluminum baffle for superior performance Architecturally focused slim flange

Specular Deep Finish

1151 Specular reflector provide up to 40% greater output Superior cut-off and optical performance Less glare from light source Architecturally focused slim flange

Cratere Dome

1124 Anobrite upper reflector provide 25% greater output Beautiful decorative glass element Architecturally focused slim flange

Recessed Adjustables

1130CL Hydroformed aluminum cone with specular anodized finish Provides 35° horizontal rotation and 0° to 35° vertical adjustment. Superior cut-off and optical performance Less glare from light source Architecturally focused slim flange

Utilize these unique products for specific applications to provide additional elegance or functionality.

Pinhole

2011 High performance accent lighting Available in line and low voltage Excellent cut-off and glare control

Slot

2006 High performance accent lighting Available in line voltage Excellent cut-off and glare control

Cross Blade

1132 Aluminum cross blade louver shields light source Provides soft, scallop-free beam Excellent for corridors or lighting kitchen cabinets

Wall Washing

1186 Several styles available from basic eyelets to elegant open designs Available in reflector and baffle options Smooth wash of light up to ceiling line with excellent glare control

Complete Slope

1154WH 14-45° adjustment with one trim Up to 120W PAR38 insulated ceiling True 6 3/4" ceiling cut-out Available in several finishes
