As its name suggests, the High Country collection from Kichler elevates the rustic, outdoor look to a work of art. The rods and ribbons of hand-formed steel that make up each piece are layered with our exclusive Olde Iron finish. This family of fixtures also features Umbered Alabaster swirl glass, which not only look beautiful, but also produce a warm, inviting light. When combined, these elements make High Country an ideal selection for the individual looking to bring a rural touch to their home. Both attractive and bold in its design this 4-light bath light represents the essence of the High Country collection and can be installed with the glass up or down.
