Item # CG10, Giant Filter Housing - Full Size/Clear Bowl w/Pressure Relief Button(Fits 4 1/2 x 9 3/4 cartridges)

List Price

QUOTE

Giant filter housings offer the following unique features:

- Head and sump threads incorporate Keystone's exclusive positive stop feature to prevent overtightening.
- O-ring is securely retained in groove at top of bowl so that it stays in place even during cartridge replacement.
- Custom colors available by special order.
- Mounting bosses in head for available bracket.
- Full testing to industry standards of the Water Quality Association for burst pressure, water tightness and fatigue resistance.
- FDA
