Results Are Amazing!

- **Frees stuck fan blades, blower wheels, pulleys, nuts, and bolts.**
- **Unique formula uses capillary action to penetrate into the smallest cracks and crevices.**
- **Powerful solvent breaks the bonds of rust and corrosion.**
- **Lubricates and protects metals. Displaces water and prevents rust.**
- **Dielectric strength to 50,000 volts.**
- **Saves Time, Labor, and Money.**

Penetrate^{HD} was tested against the industry's leading penetrating oil

Use on HVACR blower and motor shafts, fan blades, pulleys and other parts, plant machinery, processing equipment, tools, rusted nuts, bolts, screws, fasteners, hinges, locks, pins, sliders, auto, truck, marine equipment, and for cleaning rifle barrels and guns.

Money Back Guarantee: Penetrate^{HD} will free frozen and rusted metal parts or your money back.

Penetrate^{HD} is specially formulated using new low surface tension technology to penetrate into the smallest cracks, crevices, seams, or threads of rusted, seized, and corroded metal parts. The powerful solvents then quickly dissolve the bonds of rust, corrosion, carbon deposits, gums, varnishes, and grease to loosen and free the metal parts. Penetrate^{HD} displaces water and leaves a lubricating film on metals to prevent rust and corrosion.
