# FLEXCOR® WIRE MESH GRIPS

## Product Description

### Application

Flexcor® Wire Mesh Grips are used to support cable or conductor after it has been installed, pull electrical cable or conductor into place, provide strain relief at the point of wiring connections. Flexcor® devices protect cables, relieve stress, and prevent cable pull-out from fittings and terminations.

### Support Grip Attachments

Available in four different attachments. Load is distributed over entire length of grip and will not injure cable.

### Support Grip Mesh Types

Available in three types and depends on availability of wire end.

### Strain Relief Grip Fittings

Prevents pull-out or damage to cable due to constant motion or flexing. Also for Liquid-Tight, hose and box connections.

### Pulling Grips

Assortment of rugged pulling grips available individually or in kits to make wire pulling easier.

# FLEXCOR® WIRE MESH GRIPS

## Strain Relief Grips

**Wide Range, Straight Male, Dust Tight**

**Turnlok/EHU Strain Relief Grips**

### Description

Wide range grips are recommended for use in wiring of enclosures, power boxes, machine tools, and power centers. Includes insulated bushing.
