

## Recessed Accessories

### Green Your Most Used Spaces

At a minimum, ENERGY STAR recommends installing qualified CFLs in fixtures that are used at least 15 minutes at a time or several hours per day. The best fixtures to use qualified CFLs in are usually found in the following areas of your home:

- family and living rooms
- kitchen
- dining room
- bedrooms
- outdoors

### Paper Tips

Choose recycled paper and envelopes that have been processed and colored using eco-friendly materials.

Get off mailing lists you don't want to be part of. You will save paper and the annoyance of all that junk mail.

If your copier or printer has a 2-sided feature, use it. You will use half as much paper.

**P8588-01** 4" ceiling gasket  
**P8584-01** 5" ceiling gasket  
**P8587-01** 6" ceiling gasket  
**P8589-01** 8" ceiling gasket
