COPPER RING PEX TOOLS

SARGENT® 9200 Series *Soft-Touch* Steel Handle Crimp Tools for Copper Rings

SARGENT® is the industry standard for reliable crimping and durability. SARGENT® Soft-Touch Crimp Tools are the choice for plumbing contractors. Decades of reliable use prove top quality design and performance. Strict manufacturing standards guarantee precise crimps and robust construction. SARGENT® crimp tools are engineered to “stand the test of time”, crimp to the proper specifications and make the job easier. These heavy duty tools provide tens of thousands of crimps with minimal care.

- Robust, steel handles and comfort grips
- Crimps conform to ASTM F-1807 Standard Specification
- Easily calibrated; simple instructions are on the handle
- Available in short, medium and long handle lengths and single or dual cavities:
 - STS Short handles for tight quarters (12" tool length)
 - STM Medium handles for extra leverage (16" tool length)
 - STL Long handles for larger diameters (19" tool length)
