Component Diagram:

STEP 1

Choose LED Tape Strips Select tape length, voltage, color temperature and face color based on your desired specifications.

STEP 2

Select Connectors & Cables Determine required connectors and cuts to achieve your system configuration.

STEP 3

Select Transformers Multiply the number of feet in your run by 3 watts to determine transformer size. Match voltage of the transformer to your LED tape's voltage.

Optional Components Mount tape with included 3M[™] industrial adhesive backing or mounting clips.
