8' LED Tape Connector Cord with Bare Leads

Description

8 ft. connector cord for connecting an Ambiance LED Tape run to a transformer. Features a molded connector on one end to connection to an LED tape lighting run. Opposite end has five bare leads for connection to a 12 or 24V transformer. Twist the two leads to the left together, twist the two leads to the right together, then wire to low voltage terminal block. Center lead is not needed and may be trimmed.

Specifications

Item Number	98662S-12
Finish	Black
Dimensions	L: 96" W: 1/2"
Safety Listing	cETL Listed for Damp Locations
Warranty	1-Year Warranty

Instruction Sheets

- Trilingual (English, Spanish, and French) (HC-1894FS)

Master Pack	98662S-12	12	10785652159432	6.18	5	5	0.089	1.6	Yes

Component Diagram:

STEP 1

Choose LED Tape Strips
Select tape length, voltage, color temperature and face color based on your desired specifications.

STEP 2

Select Connectors & Cables
Determine required connectors and cuts to achieve your system configuration.

STEP 3

Select Transformers
Multiply the number of feet in your run by 3 watts to determine transformer size. Match voltage of the transformer to your LED tape's voltage.

Optional Components
Mount tape with included 3M™ industrial adhesive backing or mounting clips.
