QickClamp™ System (Patent Pending)

Installing Zurn PEX systems just got easier and more reliable with the new patent-pending stainless steel QickClamp ring. You can now make tube-to-fitting connections of multiple sizes with just one crimping tool. The QickClamp tool fits four sizes of rings and fittings – 3/8", 1/2", 3/4", and 1". Constructed of stainless steel, the QickClamp is durable and corrosion resistant. This innovative new ring is backed by our 25-year warranty when used with Zurn PEX tubing and fittings. The QickClamp is perfect for both plumbing and heating applications.

Features That Count ...

- 1 Locating tab properly positions critical components
- 2 Bridge feature provides uniform crimping forces
- 3 Position indicator visually confirms assembly
- 4 Stainless steel material resists corrosion
- 5 Gripping ribs minimize installation time
- 6 Crimping ear allows one tool for all sizes
